

## Changing your child's name with OneFamily

### Certification of documents:

To be able to change your child's name, we need evidence of the change. The documents need to show a clear link between your child's old name and their new name. Please avoid sending original documents, as we are unable to guarantee their safety in the post.

The documents you send us need to be certified by someone you feel is responsible, over the age of 18, but not a family member. To do this, please ask them to write the following on the front or back of each page of the copied document in original ink:

- "I confirm that this is a true photocopy of the original document"
- their name
- their address and their telephone number
- their signature and the date

All documents must be in English or accompanied by a translation. Photocopies of translations must be certified by the translation company.

We will update our records and send you confirmation as soon as we get a correctly certified document. If you send a photocopy we will keep the document, unless you ask us to return it.
