## Investment Objective and Policy

The investment objective of the OneFamily Stockmarket 100 Trust is to provide capital growth over a 5+ year time horizon in line with the FTSE 100 Index.

The Trust aims to achieve its objective by investing in a wide range of shares that closely match the performance of the FTSE 100 Index.

To obtain exposure to these assets the Trust will invest directly. The Trust may also invest indirectly by purchasing units in Collective Investment Schemes managed by other companies.

Subject to the Constraint Benchmark and Tracking Error stated below, the Manager has the discretion to manage the Trust according to its investment views and opportunities identified as market and economic conditions change. It will select investments that it believes will best achieve the Trust's objective. An assessment will be completed on all investment opportunities before any investment decisions are made.

The Trust is managed with reference to the FTSE 100 Index as a Constraint Benchmark and targets a maximum Tracking Error of 1% allowing it to vary a proportion of its investments from this Index. The FTSE 100 Index is provided by FTSE, which is included in the public register of administrators and benchmarks established and maintained by the European Securities and Markets Authority from 1st January 2018.

The Trust has the flexibility to invest in other assets globally, such as cash, near cash and other money market instruments, real estate and commodities.

The Trust may use derivatives for efficient portfolio management.

There have been no changes to the Prospectus during the period.

## Trust Performance

This report covers the period from 16th April 2023 to 15th October 2023. During this time, the OneFamily Stockmarket 100 Trust institutional units recorded a gross of fee absolute return of (1.5%) (April 2023: 6.8%) and the retail units returned (1.4%) (April 2023: 6.9%) calculated on the same basis, while its benchmark (the FTSE 100 Index) returned (1.6%). The net of fee returns are shown in the table below.

6 Months	
16/04/2023 – 15/10/2023	
<b>OneFamily Stockmarket 100 Trust – Institutional units*</b>	(2.2%) (April 2023: 5.3%)
<b>OneFamily Stockmarket 100 Trust – Retail units*</b>	(1.6%) (April 2023: 6.5%)

Source: (OneFamily Stockmarket 100 Trust Institutional Units & OneFamily Stockmarket 100 Trust Retail Units) OneFamily, basis bid to bid net of tax on dividend, (FTSE 100 TR Share Index) State Street Global Advisors (SSGA).

\* Trust performance is based on price movement calculated using a nominal price at close, which will include all charges & distributions payable. The benchmark is not affected by any charges.

Please note that the figures in this section shown in brackets denote negative returns.

## Going Concern

The Manager has undertaken an assessment of the Trust's ability to meet its liabilities as they fall due, including the investment portfolio liquidity, and is satisfied that the Trust has adequate financial resources to continue in operation for at least 12 months from the date of approval of these financial statements, therefore it is appropriate to adopt the going concern basis in preparing the financial statements.

## Market Update

UK equities experienced a volatile semi-annual period, with a sharp decline in the first half of the reporting period (Q2-2023) followed by a strong recovery in the second half of the reporting period (Q3-2023). The main drivers of the market performance were the fluctuations in commodity prices, currency movements, interest rates and consumer confidence.

## Market Update - continued

Over the first half of the reporting period (Q2-2023), the UK economy produced mild economic growth, with Gross Domestic Product (GDP) rising by 0.2% quarter on quarter, beating forecasts. However, in the second half of the reporting period (Q3-2023) the UK GDP is estimated to have shown no growth. During the reporting period, the International Monetary Fund (IMF) upgraded its forecast for UK real GDP growth for 2023 to positive 0.4% year on year, and up sharply from its previous negative growth estimate of (0.3%).

The large UK-quoted diversified energy and basic materials groups were the most sensitive to these factors, as they suffered from a broad-based weakness in commodity prices and a strong sterling in the first half of the reporting period but rebounded from a sharp recovery in crude oil prices and a weak sterling in the latter half. These sectors also benefited from their exposure to the US dollar, which strengthened against most major currencies over the period.

The domestically focused areas of the market also faced significant challenges in the initial months, as the Bank of England (BoE) raised rates twice in response to stronger than expected UK jobs market numbers, wage growth and core inflation readings. This resulted in a sharp sell-off in UK gilts (rising yields), which weighed on some sectors such as housebuilders, consumer staples and real estate.

However, these sectors recovered well later in the reporting period, as signs of improving UK consumer confidence and hopes that base interest rates may have peaked boosted their prospects. The sell-off in long-dated gilts moderated somewhat and long-term fixed mortgage rates fell, which supported the housing market and other consumer discretionary areas. Some travel and leisure companies, such as pub groups and transport operators, also outperformed over the quarter.

## Activity

Below is the market capitalisation split of the Trust.

Index	OneFamily Stockmarket 100 Trust 15th October 2023 (%)	Benchmark 15th October 2023 (%)
FTSE 100 TR Share Index	95.9	100
Net Other Assets	4.1	–

## Outlook

Equity performance has been supported by lower market rates, which have partially offset weaker corporate earnings. However, we do not see the rally in equities being able to sustain itself through the remainder of 2023. The US equity market advance has been led by a narrow group of mega-cap stocks that benefited from the drop in rates and earnings that beat lowered expectations. For the rest of the year, we expect earnings to soften further. We have concerns about worsening fundamentals, weaker demand as financial conditions tighten, and elevated margin pressures driven by still high levels of inflation.

We anticipate volatility over the balance of 2023 into early 2024 as the economy digests tighter credit conditions, slow growth, and geopolitical tensions. We believe equities will outperform when investors have confidence that economic growth will return to trend levels – such outperformance tends to come six to nine months ahead of trend growth being achieved. We will maintain a close eye on allocations as we continue to monitor macroeconomic factors – the pace of disinflation, the response of central banks, and the extent of economic slowdown.

### Ongoing Charges Figure (OCF)

<i>At period ended</i>	<i>OCF % Institutional Units</i>	<i>OCF% Retail Units</i>
October 2023*	1.51	0.35
April 2023	1.50	0.35

\* Annualised

The OCF is a measure of the Trust's ongoing charges. Apart from the initial charge, all other expenses are included in the OCF. The OCF is an accepted standard for the comparison of cost for authorised trusts, recognised throughout Europe.

### Trust Tracking Error

<i>At period ended</i>	<i>Ex-Ante Tracking Error %</i>	<i>Ex-Post Tracking Error %*</i>
October 2023	0.04	0.06

\* Annualised

As the Trust is an equity index tracker which holds the majority of securities within the benchmark we would expect low tracking error, which explains the difference between the anticipated tracking error of 0.20% compared to the realised of 0.06%.

For index-tracking UCITS (Undertakings for Collective Investments in Transferable Securities), the tracking error is usually defined as the volatility of the difference between the return of the index-tracking UCITS' portfolio and the return of the benchmark or index. The tracking error helps measure the quality of the replication.

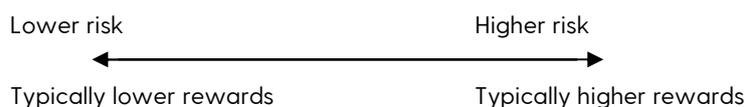

Ex-ante tracking error is calculated using a forecasting model.

Ex-post tracking error is calculated using historical returns.

### Authorised Status

The OneFamily Stockmarket 100 Trust is an Authorised Unit Trust Scheme under section 243 of the Financial Services & Markets Act 2000 and is categorised as a UCITS Scheme under the FCA's Collective Investment Schemes Sourcebook (COLL). The Trust was authorised on 21st May 1985, under registration number 1915516. The unitholders are not liable for the debts of the Trust.

### Risk and Reward Profile

The risk and reward profile is designed to give you a guide to the Trust's level of risk and potential for growth. The higher the number, the greater the potential for growth but the greater the risk.

The Trust has a category of six (April 2023: Same); this is due to the fact that the risk and reward profile is based on volatility of price movement over a five-year period. Therefore, the more the price moves during that period the higher the risk and reward profile will be.

The risk and reward profile is a measure of the Trust's past volatility in returns, and is therefore not an indicator of future performance.

# Statement of Manager's Responsibilities

## In relation to the Report and Accounts of the Trust

The Collective Investment Schemes Sourcebook published by the Financial Conduct Authority ("the COLL Rules") require the Manager to prepare financial statements for each accounting period, which give a true and fair view of the financial position of the Trust and of the net income and the net gains or losses on the property of the Trust for the period.

In preparing the financial statements the Manager is responsible for:

- (a) Selecting suitable accounting policies and then applying them consistently;
- (b) Making judgements and estimates that are reasonable and prudent;
- (c) Following UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*;
- (d) Complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association in May 2014 (and amended in June 2017);
- (e) Keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- (f) Assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- (g) Using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so;
- (h) Such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- (i) Taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager confirms that all requirements have been met in preparing the financial statements.

The Manager is responsible for the management of the Trust in accordance with its Trust Deed, Full Prospectus and COLL rules.

The Manager is responsible for the maintenance and integrity of the OneFamily website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

In pursuing its investment objective set out on page 4 the Trust holds a number of financial instruments. These comprise:

Equity and non-equity shares. These are held in accordance with the Trust's investment objective and policies;

Cash, liquid resources and short term debtors and creditors that arise directly from its operations; and

Unitholders' funds which represent investors' monies which are invested on their behalf.

It is, and has been throughout the period under review, the Trust's policy that no trading in financial instruments, other than on the Trust's account, shall be undertaken (April 2023: Same).

## Director's Statement

# Notes to the Financial Statements

## 1. Accounting Policies

### *(a) Basis of Accounting*

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investments, and in accordance with the Statement of Recommended Practice for Authorised Funds issued by the Investment Association in May 2014 (AF SORP 2014) (and amended in June 2017) and Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland. No changes have been made to accounting policies or to the accounting estimates used in applying these policies.

The property of the Trust is stated as at close of business on the 13th October 2023, being the last business day of the financial period. The difference between the valuation at the close of business and that at the pricing point is disclosed in Note 12. The difference between these valuations is not considered to be material.

### *Going Concern*

The Manager has undertaken an assessment of the Trust's ability to meet its liabilities as they fall due, including the investment portfolio liquidity, and is satisfied that the Trust has adequate financial resources to continue in operation for at least 12 months from the date of approval of these financial statements, therefore it is appropriate to adopt the going concern basis in preparing the financial statements.

### *(b) Revenue*

Dividends on equities, investment trusts and property income trusts are recognised when the security is quoted ex-dividend and are shown net of any attributable tax credits. Interest on cash balances and other income are accounted for on an accruals basis. Underwriting commission is recognised when the issue takes place.

### *(c) Valuation*

All investments are valued at their fair value as at close of business on the 13th October 2023, being the last business day of the financial period. The fair value is determined using the fair value hierarchy as stated in the accounts.

Listed investments have been valued at bid value as at close of business on the Balance Sheet date and are shown net of any accrued interest which is included in the Balance Sheet as a debtor.

Any unlisted, delisted, suspended or unapproved securities have been valued at the Manager's best estimate. It takes into account, where appropriate, latest dealing prices, valuations from independent reliable sources, financial performance, liquidity discounts and other relevant factors.

Any open positions in derivative contracts or forward foreign currency transactions at the period end are included in the Balance Sheet at their Mark to Market value.

### *(d) Taxation*

Current tax is provided for on the revenue liable to corporation tax less deductible expenses.

Deferred tax is provided for on all timing differences that have originated but not reversed by the Balance Sheet date. Any liability to deferred tax is provided at the average rate of tax expected to apply. Deferred tax assets and liabilities are not discounted to reflect the time value of money.

### *(e) Foreign Currencies*

The functional and presentational currency of the Trust is pound sterling (GBP).

Assets and liabilities have been translated into sterling at the exchange rate prevailing at the valuation point. Non-Sterling receipts and payments are translated at the rates applicable on the date of settlement. Any gains or losses arising from holding assets or liabilities denominated in currencies other than sterling are recognised as capital or income depending on the nature of the underlying item.

### *(f) Distribution Policy*

The net income of the Trust is regarded as the amount available for distribution; no adjustment is made in respect of either management expenses or stock dividends. Management expenses, to the extent that it is permitted, are charged against income.

### *(g) Special Dividends*

These were recognised as either income or capital depending upon the nature and circumstances of the dividend receivable.

### *(h) Treatment of Stock Dividends*

The Trust may elect to take up stock paid in lieu of a cash dividend. These stocks are recorded in the accounts at a value equal to the dividend cash equivalent. These dividends have been recognised as income and form part of the distribution.

In the case of enhanced stock dividends, the amount by which such dividends exceed the cash dividends is treated as capital and does not form part of the distribution.

## 1. Accounting Policies - continued

### (i) Treatment of Stock Lending

Stock lending income is recognised on an accruals basis net of associated costs. The Trust has not undertaken any Securities Financing Transactions during the accounting period in that it has not engaged in stock lending or stock borrowing, or the lending or borrowing of other financial instruments, a repurchase or reverse repurchase transaction, or a buy-sell back or sell-buy back transaction.

### (j) Treatment of Expenses

All expenses, except for those relating to the purchases and sales of investments are charged initially against income.

### (k) Significant Judgements and Sources of Estimation Uncertainty

There are no significant judgements or sources of estimation uncertainty.

## 2. Distribution Policy

All revenue received by the Trust less accrued income, revenue expenses and taxation is allocated to unit holders and accumulated. Distributions are made in accordance with the COLL Sourcebook.

## 3. Net Capital Losses on Investments

The net losses on investments during the period comprise:

	October 2023 £'000	October 2022 £'000
Losses on investments	(9,345)	(28,279)
Losses on futures	<u>(117)</u>	<u>(25)</u>
Net losses on investments	<u>(9,462)</u>	<u>(28,304)</u>

Factors affecting the capital movements on investments are available in the investment review on pages 4 & 5.

## 4. Revenue

Provision at end of period	<u><u>—</u></u>	<u><u>—</u></u>

\* As an Authorised Unit Trust these items (franked dividends) are not subject to Corporation Tax.

The Trust is exempt from Capital Gains Tax.

The Trust has not recognised a deferred tax asset of £9,290k (April 2023: £8,953k), which has arisen as a result of having unutilised management expenses. These expenses will only be utilised if the tax treatment of capital gains or the Trust's investment profile changes.

## 7. Finance Costs

### Distributions

The distributions take account of all revenue received by the Trust less accrued income, revenue expenses and taxation, and comprise:

Interim distribution	<u>3,404</u>	<u>3,780</u>
	<u><u>3,404</u></u>	<u><u>3,780</u></u>

Details of the distribution per share are set out in the table on page 25.

### 12. Risk Management

Financial Instruments are valued at fair value in accordance with Financial Reporting Standard 102, chapters 11 and 12, as disclosed in note 1(c).

#### Management of risk

The principal risks arising from the Trust's financial instruments are market price and credit risks. The Manager reviews (and agrees with the Trustee) policies for managing each of these risks. These policies have remained unchanged since the beginning of the period to which these financial statements relate, and the preceding period.

#### Fair values of financial instruments

All of the financial assets of the Trust are held at fair value or fair value equivalent.

##### *Financial liabilities and equity instruments*

The units of the Trust are puttable equity instruments, which means that the unitholder can sell at their discretion the units they hold, back to the Trust for cash for the price quoted that day.

- At the Balance Sheet date the liability to redeem units to the unitholders was £247,745,903 (April 2023: £281,065,209).

The fair value of the Trust as at the pricing point, is derived from the cancellation price of the units as at 10.00am on 13th October 2023, which is the lowest redeemable value of the Trust.

The fair value of the Trust at close is derived from the closing bid price of the units as at 15th October 2023.

Set out below is a comparison of the Trust's financial liabilities and equity instruments at the fair bid value as at close and the pricing point of the Trust.

		<b>Fair Value at close £</b>	<b>Fair Value at pricing point £</b>
<b>Primary financial liabilities and equity instruments held or issued to finance the Trust's operations:</b>			
Liability to redeem units	October 2023	247,745,903	248,688,579
	April 2023	281,065,209	281,027,190

#### Valuation of financial instruments carried at fair value

Fair values are determined using the following fair value hierarchy that reflects the significance of the inputs in measuring fair value:

##### Level 1

The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

##### Level 2

Inputs other than quoted prices included within Level 1 that are observable (i.e., developed using market data) for the asset or liability, either directly or indirectly.

The Trust currently has no assets of Level 2.

##### Level 3

Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

## Notes to the Financial Statements - continued

### 12. Risk Management - continued

The table below summarises the fair values of the Trust's financial assets and liabilities that are accounted for at fair value, analysed by the valuation methodology used by the Group to derive the financial instruments fair value:

October 2023	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Equities	235,799	–	0	235,799
Investment Trusts	1,755	–	–	1,755
Futures Liabilities	(7)	–	–	(7)
Total	<u>237,547</u>	<u>–</u>	<u>0</u>	<u>237,547</u>
April 2023	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Equities	260,174	–	0	260,174
Investment Trusts	1,835	–	–	1,835
Futures Assets	12	–	–	12
Total	<u>262,021</u>	<u>–</u>	<u>0</u>	<u>262,021</u>

#### Currency rate risk

The Trust may invest in foreign equities, which are priced in local currency. The local value is converted to sterling at the prevailing exchange rate for valuation purposes. The Trust is exposed to the possibility of sharp currency movements, which can affect the value of the portfolio on a daily basis.

The Trust may be subject to short term exposure to exchange rate movement, for instance where there is a difference between the date when the investment purchase or sale is entered into and the date when settlement of the proceeds occurs. When the Trust enters into such a transaction which will involve the buying and selling of foreign currency in order to complete, a forward contract is entered into at the same time as the initial transaction in order to eliminate exchange rate risk.

The Trust receives income in currencies other than sterling and movements in exchange rates can affect the sterling values of this income. The Trust converts all receipts of income into sterling on or near the date of receipt. However, it does not hedge or otherwise seek to avoid rate movement risk on income accrued but not received.

The Trust currently invests predominantly in UK equities; therefore, no additional disclosure has been shown.

#### Derivative risk

The Manager may employ derivatives solely for the purposes of Efficient Portfolio Management with the aim of reducing the risk profile of the Trust, using a derivative that is the closest match to the FTSE 100 Index.

The derivative exposure to the Trust obtained through efficient portfolio management techniques as at 15th October 2023 was 0.00% (April 2023: 0.00%)

#### Credit risk

Certain security transactions that the Trust enters into expose it to the risk that the counter-party will not deliver the investment (purchase) or cash (sale) after the Trust has fulfilled its responsibilities.

A 5% increase in default or loss rate on trade receivables will have an impact of nil (April 2023: nil) on the Net Asset Value of the Trust.

The Trust only buys and sells investments through brokers, which have been approved by the Investment Advisor as an acceptable counter-party. The Manager undertakes periodic visits to the Investment Advisor to confirm that delegated functions are being performed in accordance with Financial Conduct Authority's rules.

# Notes to the Financial Statements - continued

## 12. Risk Management - continued

### Liquidity risk

The Trust's assets comprise mainly of readily realisable securities, which can be readily sold. The main liability of the Trust is the redemption of any units that investors wish to sell.

### Market price risk

Market risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Trust might suffer through holding market positions in the face of price movements.

The Investment Advisor meets monthly (or more often if appropriate) to consider the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the investment objective. An individual fund manager has responsibility for monitoring the existing portfolio selected in accordance with the overall asset allocation parameter described above and seeks to ensure that the individual stocks also meet the risk reward profile that is acceptable.

The Trust closely follows the FTSE 100 Index, and as such is almost solely invested in high quality UK equities. Any movement in equity prices will have a direct and linear impact on the value of assets in the Trust and consequently the unit price.

Sensitivity to the most relevant risk has been assessed through tracking error (see page 6); therefore, no additional disclosure has been shown.

A 5% increase in the value of the Trust's portfolio would have the effect of increasing the return and net assets by £11,877,386 (April 2023: £13,101,034)

### Russian exposure risk

Following the events in Ukraine, State Street Global Advisors (SSGA) has suspended the purchase of Russian securities in all portfolios for the foreseeable future. SSGA's overall exposure to Russian securities, from a valuation standpoint, is less than 0.01% of their total assets under management (estimated as of March 3, 2022), which are primarily invested in portfolios tracking various equity and fixed income indexes.

With respect to investment pools and funds that SSGA sponsor and manage (including Exchange Traded Funds) (collectively, the "SSGA Funds") and client investment accounts they manage, where the investment strategy for such SSGA Funds and client investment accounts is to track an index, SSGA intend to continue to manage those Funds and client accounts to track such indexes as those indexes are revised by the index providers, subject to market conditions, applicable sanctions requirements, and/or Russian capital controls or other counter measures allowing for or restricting the sale of current holdings.

SSGA will continue to manage portfolios in alignment with client objectives, subject to market conditions, and are carefully considering ongoing market, regulatory and fiduciary duties as they navigate this evolving situation.

The Trust's exposure to Russia is as follows:

As at 15th October 2023

<b>Stock</b>	<b>£'000</b>	<b>% of NAV</b>
Evrz	0	0.00%
<b>Total</b>	<u>0</u>	<u>0.00%</u>

### 13. Portfolio Transaction Costs

The Trust incurs broker charges and transfer taxes as a necessary part of buying and selling the Trust's underlying investments in order to achieve the investment objective.

Broker commission and transfer taxes are paid by the Trust on each transaction. In addition, there is a dealing spread between the buying and selling prices of the underlying investments.

## Corporate Unitholders Information

A unitholder within the charge to UK corporation tax receives the allocation excluding any equalisation as unfranked income to the extent that the income from which the allocation is made is not franked investment income.

Where the income from which the allocation is made is not wholly franked investment income, part of the allocation is received as an annual payment from which income tax at the lower rate has been deducted.

The tax deducted is available for offset against the unitholders' corporation tax liability. If there is no tax liability the amount may be reclaimable as cash from HM Revenue & Customs.

15th October 2023	Franked% (1)	Unfranked % (2)
Institutional Units	98.00	2.00
Retail Units	98.00	2.00

15th October 2022	Franked% (1)	Unfranked % (2)
Institutional Units	100.00	0.00
Retail Units	100.00	0.00

- (1) The percentage of the total allocation that is received as franked investment income.
- (2) The percentage of the allocation that is received as an annual payment after deduction of income tax at the lower rate and is chargeable to corporation tax. It is not franked investment income.

# General Information

## Remuneration Policy:

Following the implementation of UCITS V in the UK, Family Investment Management Limited (FIML) the UCITS management company is required to comply with the UCITS Remuneration Code disclosure requirements for annual accounting periods ending after 18th March 2016. UCITS V introduces a requirement for UCITS management companies to have remuneration policies, complying with certain remuneration principles, covering their key staff and a requirement to make those policies transparent. FIML does not remunerate directly as the employees are paid by the Society (Family Assurance Friendly Society Limited) and seconded to FIML. Based on the activities carried out on a pro rata basis between FIML and other group companies we are satisfied that there is no senior management and risk takers, whose professional activities would have a material impact on FIML's risk profile or the risk profiles of the UCITS. Most of the UCITS remuneration requirements, where possible, are being met by the Society's adoption of the best practice of the 2018 UK Corporate Governance Code and through reporting against the principles of the AFM Corporate Governance Code for Mutual Insurers. We are also aligned to the requirements of the Remuneration Code (the latter governed by the Financial Conduct Authority). The UCITS remuneration requirements that are not being met (i.e. variable remuneration in instruments; retention; deferral) we believe can be justifiably dis-applied due to FIML's size, internal organisation and the nature scope and complexity of its activities.

The Remuneration Policy of the Manager, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at [www.onefamily.com](http://www.onefamily.com), within the Society's Annual Report or a copy of the Annual Report can be requested free of charge from the Manager
