## CHAIRMAN'S REVIEW

Robert Dolman, Chairman

### Overview

I am pleased to report that 2007 was another successful year for the Society, which has continued to grow strongly through its leadership of the Child Trust Fund (CTF) market.

We now administer more than 1,000,000 policies of which over 500,000 are CTF accounts. As such the CTF is now the major engine of growth for the Society and with it we are encouraging many families to start the saving habit.

The spectacular growth of the Society through the medium of CTF would not have been possible without the continued support of the existing membership base and we are grateful for their loyalty and mindful of our duty to ensure they share in the success of the Society.

### Results

In 2007 our membership increased by more than 11% to over 909,000 which has allowed us to put downward pressure on our unit costs whilst maintaining a high level of service to our members.

Our reserves increased by £2.1m and remain comfortably in excess of statutory limits. We expect

that our reserves will continue to increase in future years, as surpluses gradually emerge from the significant volumes of new business written in the past three years.

World Stock Markets, in contrast to the previous three years of steady growth, were volatile in 2007. The second half of the year in particular saw sharp fluctuations in most of the major markets and asset classes.

We continue to believe that equities hold the best long-term store of value, but there might well be further stock market turbulence in 2008. For those Family Bond members who wish to avoid such fluctuations we offer the ability to switch their investment to our Safety First Fund, which aims to protect your capital.

### Products

The Child Trust Fund has continued to make a significant impact since its launch in April 2005. All children born since 1st September 2002 will have one and this has introduced many more people to the concept of long-term saving.

Child Trust Funds are opened with a donation from the Government (usually £250) and it is easy for anyone to top up this amount either with ad hoc lump sums or with regular payments by direct debit which can be started from just £10 a month. We have been encouraged by the increasing number of additional payments being made by families, grandparents, uncles, aunts and friends. Around one third of our CTF accounts are now receiving additional contributions from family and friends, an excellent start but we wish to engage more parents to save for the future benefit of their children.

Towards the end of 2006, we broadened our product range by enabling our CTF customers to

invest in the Society's ethical unit trust. This has proved to be an increasingly popular choice for CTF investors.

Last year we were delighted that Nectar selected Family as its CTF provider. This has provided an interesting "save as you spend" dimension for those who take out their CTF via Nectar in enabling them to convert Nectar points into CTF top up contributions.

We have also been pleased by the continued support of members for our more traditional products through our Family and Junior Bonds, ISAs and Unit Trusts. Many members decide to retain their policies beyond their original maturity date and many see this option as providing valuable flexibility in giving them the ability to time withdrawals when markets are more stable.

### Customer Service

Our members expect excellent service and to be treated fairly. I am pleased to report that we have seen continued service improvement in 2007 with a further reduction in complaints (30% down on 2006) and better than benchmark service to our members and our distribution partners who introduce a significant proportion of our CTF business. Nonetheless, there can be no room for complacency. Where we do make mistakes, we will seek to learn from them, ensure our members are fairly recompensed where appropriate and further fine tune our service.

### Corporate Governance

From the 1st January 2006 we have sought to comply fully with the Annotated Combined Code for Mutual Insurers, which seeks to ensure a high level of Corporate Governance and provide members with more information on how their Society is run. We hope you find the increased

amount of information available of benefit but welcome your comments on this, or indeed any other matter related to your Society.

PricewaterhouseCoopers LLP have been the Society's auditors for many years and we have been pleased with their service. However in keeping with best practice, last year we conducted a periodic review of our audit arrangements. Following detailed presentations from three audit firms the Society's Audit Committee felt that it was time for change and Mazars LLP were appointed as our auditors from 18th July 2007, subject to ratification at our 2008 Annual General Meeting.

### Employees

Our employees take great pride in the success of your Society. The Committee of Management is proud of what they have achieved to date and I thank them for their efforts.

Robert Dolman, Chairman  
March 2008

## CHIEF EXECUTIVE'S OPERATIONAL REPORT

John Reeve, Chief Executive

### Review of Activities

Our entry into the CTF market has been extremely successful. We have now opened over 500,000 new accounts since launch of the CTF with total CTF funds under management exceeding £250m. Of these, more than 100,000 new accounts were opened in 2007 with total contributions in 2007 from all products exceeding £144m.

Our CTF continues to be sold primarily through partnerships with our prestigious distribution partners such as Barclays Bank, Post Office, Bounty and Sainsbury's amongst others, making our CTF product available through 15,000 retail outlets. Our market reach was further enhanced midway through 2007 when Nectar joined us as a distribution partner.

The volume of business introduced to us directly in 2007 increased significantly, driven in particular by investment in our ethical fund.

The large volumes of new business written over the past three years, coupled with tight control of our expenses means that we have been able to reduce the average administration cost per policy by taking advantage of economies of scale, and we expect

this to continue. Maintaining downward pressure on costs per policy, enables the Society to continue to grow and is particularly essential in the context of a charge capped product such as the stakeholder CTF.

We have also been meeting regularly with Treasury, HMRC and trade bodies to help shape the future development of the CTF. We have been leading the argument for the Government to review the necessity for CTF providers to collect the physical CTF voucher, something that we consider hinders parents from using more convenient methods such as the phone and internet to set up their account. We are pleased that the Government recently agreed to make this change, as simplification of the CTF application process is in line with our principle of always trying to make it easier for our customers to deal with us. There is clear evidence that, regardless of individual economic circumstances, a person who actively places their child's CTF voucher with a provider is far more likely to also contribute to the CTF than someone who has merely had the voucher allocated by HMRC.

CTF is only part of our product range and we were pleased that many existing Family and Junior Bond members continue to retain and extend their policies with us beyond their original payment terms. We also serve the Post Office work force through our POIS division, which continues to prove a successful venture following our acquisition of POIS Assurance in 2002.

While less significant in numbers, sales of our ISAs and Unit Trusts exceeded their targets for the year.

### Treating Customers Fairly

As mentioned in the Chairman's report, we have continued to give high priority to the fair treatment of our customers and the provision of excellent service and if we fail to deliver this for you we

encourage you to let us know. Our management information is designed to highlight areas of concern for our members and measure the efficiency of our service when responding to your questions:

- 100% of all the correspondence we received was answered within 5 days
- All new business applications (sales) totalling 116,000 were processed within 24 hours
- We received 270,000 telephone calls and the average response time was 10 seconds. We answered 91% of calls within 20 seconds.

### Investment

Global stock markets delivered healthy returns in the first half of 2007 extending the revival in share prices since March 2003. However the second half of the year proved to be a challenging time for stock markets with equities suffering unusual volatility in the face of fears that contagion from the US sub-prime lending crisis could lead to a serious deterioration in global economic growth. The FTSE All Share Index finished the year up 5.3%, a modest return compared to, for example, the Emerging Markets.

Government bond markets went in the opposite direction. They fell in the first half of the year, worried about European and Japanese central bank monetary tightening in response to increased inflation and diminishing hopes that the US Federal Reserve would loosen its monetary policies to counter weaker economic growth. They then rallied in the second half of the year as investors sought safe havens from the unfolding credit crisis.

As a result of this, investment returns generally were dull in 2007 and the majority of the Society's funds failed, for the first time under the management of New Star Institutional Managers Limited, to beat

their investment benchmarks. We are intolerant of poor performance and we are in active discussion with our investment managers to rectify matters.

Central banks, led by the US Federal Reserve have begun a series of interest rate cuts designed to stimulate economic activity. However so far equity values have remained volatile whilst markets consider whether this latest "shot in the arm" will be sufficient to avoid a slow down or recession. Despite these concerns we retain our belief in equities as the best store of value in the longer term.

### Future Developments

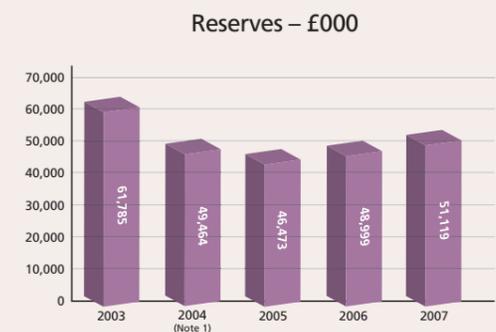

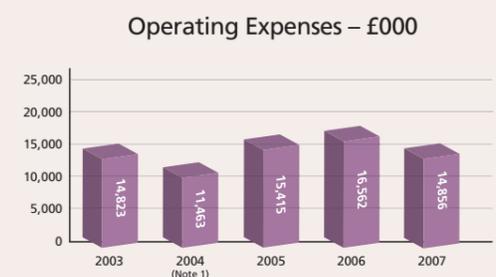

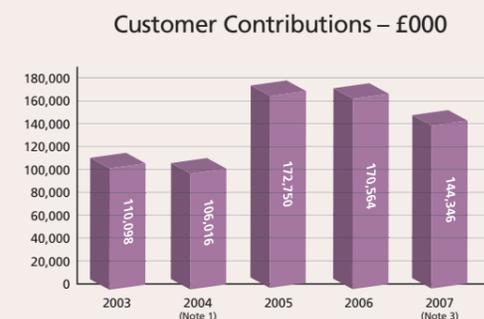

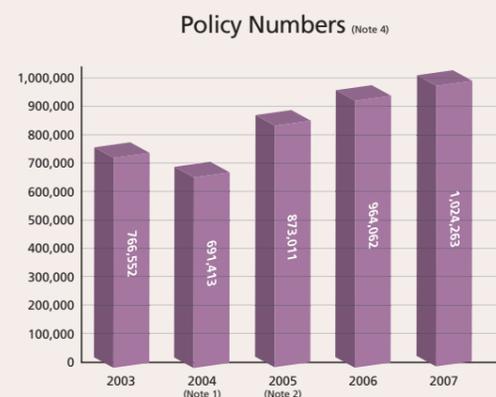

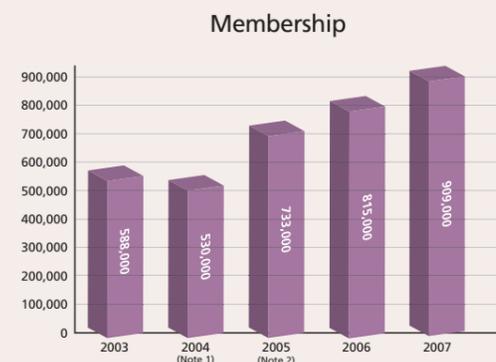

The CTF product will remain central to the Society's strategy to enable us to capitalise further on its successful launch.

We will therefore continue to develop our systems and processes to facilitate additional contributions to CTF accounts, for the mutual benefit of both the Society and its members and to improve the cost efficiency of our administrative operations.

However using our skills in high volume and low cost administration, we have also identified opportunities to broaden our strategy beyond the CTF which will support our mission of providing simple and affordable savings for all the family.

John Reeve, Chief Executive  
March 2008

## KEY PERFORMANCE INDICATORS

**Notes:**

1 During 2004 the Society transferred its with-profits pensions business to Reliance Mutual. As part of the sale we transferred assets of £254m, reserves of £18m and 17,000 members which accounts for the reduction in 2004 in the graphs above for membership, policy numbers, reserves, funds under management and contributions.

2 The impact of the Society's entry into the CTF market in 2005 can clearly be seen in the graphs for membership and policies.

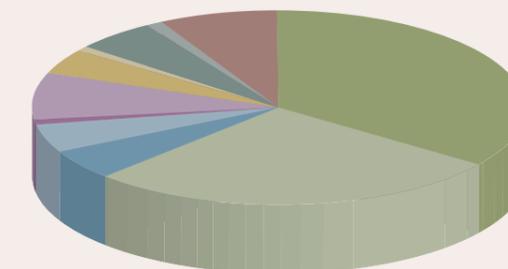

3 Contributions received in 2005 and 2006 were inflated due to the take up of CTFs for children born since 1st September 2002. In 2007 the contributions have settled down to a normal level.

4 In previous years policy numbers were shown as an average across the year. However this year they show the year end figures.

## SPREAD OF INVESTMENTS

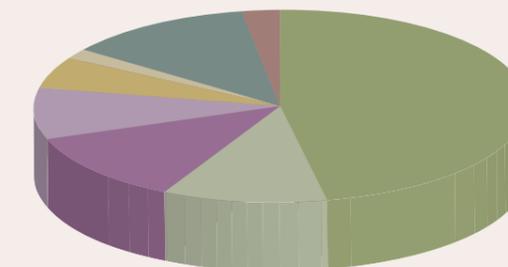

as at 31 December 2007

### Sovereign Fund

|                         | Sovereign Fund | Child Trust Fund |
|-------------------------|----------------|------------------|
| UK Equities             | 35.1%          | 47.6%            |
| UK Bonds                | 27.6%          | 10.9%            |
| Hedge Fund              | 4.9%           | 0.0%             |
| Property                | 4.8%           | 0.0%             |
| Cash                    | 0.8%           | 11.1%            |
| North American Equities | 7.8%           | 8.7%             |
| Far East Equities       | 4.2%           | 5.2%             |
| Australian Equities     | 0.9%           | 1.8%             |
| European Equities       | 5.1%           | 12.2%            |
| Emerging Markets        | 1.1%           | 0.0%             |
| Overseas Bonds          | 7.7%           | 2.5%             |

### Child Trust Fund

A photograph of a signpost in a landscape at sunset. The signpost is on the left, pointing right, with the text "Family Forest" on it. The background shows a sunset over a valley with rolling hills and trees. The sky is filled with clouds, and the sun is low on the horizon, creating a warm, golden glow. The overall scene is peaceful and scenic.

Family Forest

## COMMITTEE OF MANAGEMENT

### Non-Executive Directors

**Chairman  
Robert Dolman**

Mr. Dolman, aged 62, has been a member of the Committee since 1981, Vice Chairman from 1988 to 1993, and Chairman from 1993. He is a partner in a London firm of solicitors and specialises in trust and tax law.

**Vice Chairman  
Robert Weir FCA**

Mr. Weir, aged 59, has been a member of the Committee since 1997 and was appointed Vice Chairman and Senior Independent Director in 2007. He was a Director of the Household Mortgage Corporation and has wide experience in financial and general management.

### Executive Directors

**Chief Executive  
John Reeve FCA**

Mr. Reeve, aged 60, is a Chartered Accountant and has been a full-time executive of the Society since 1982. He joined the Committee in 1983 and has led the Society since 1987, firstly as General Manager and from 1992 as Chief Executive.

**Veronica France**

Ms. France, aged 46, was appointed to the Committee in 2006. She is a business development consultant and a past Chairman of the Investment and Life Assurance Group.

**Norman Riddell**

Mr. Riddell, aged 60, was appointed to the Committee in 2006. He is an investment consultant and Chairman of Novitas Partners LLP.

**John Wybrew FIA**

Mr. Wybrew, aged 65, was appointed to the Committee in 1999. He is a Fellow of the Institute of Actuaries and former Chairman of a life assurance company. He is a past Chairman of the Investment and Life Assurance Group.

**Finance Director  
John Adams FCCA**

Mr. Adams, aged 53, is a Certified Accountant and has been a full-time executive of the Society since 1986 when he was appointed Financial Controller. He was promoted to Finance Director and appointed to the Committee in 1993.

**Chief Operating Officer  
Rob Edwards**

Mr. Edwards, aged 52, has been a full-time executive of the Society since 1988. He was appointed to the Committee in 1997, became General Manager in 2001 and Chief Operating Officer in 2006. He is responsible for overseeing the Society's Marketing, Customer Services, Operational Finance, Corporate Projects and IT functions.

**Secretary and Corporate Services Director  
Keith Meeres FCol**

Mr. Meeres, aged 50, joined the Society in 1993 as Compliance Officer and became Secretary in 1996. He was appointed to the Committee in 1997. He is responsible for overseeing the Society's Regulatory Compliance, Risk, Internal Audit, Human Resources and Facilities functions.

## COMMITTEE OF MANAGEMENT'S ANNUAL REPORT

The Annual Report and Accounts have been prepared in accordance with The Friendly Societies (Accounts and Related Provisions) Regulations 1994 ('the Regulations').

The Society is governed by a Committee of Management. Following the previously announced retirement of two non-executive directors at the 2007 Annual General Meeting, membership of the Committee comprised the Chairman, four other independent non-executive directors and four executive directors.

The Committee is led by the Chairman whose role, along with that of the Chief Executive, has been set out and approved by the Committee. The Committee delegates management of the business to the executive directors, who meet at least monthly.

The Committee is satisfied that having considered the background and current circumstances of each non-executive director there are no relationships or issues which could affect their judgement in performing their duties. Directors' biographies and details of length of service can be found on pages 10 and 11.

### Committee of Management

During 2007 the members of the Committee were as follows:

#### Non-executives

Robert Dolman (Chairman)  
Robert Weir (appointed as Vice Chairman 25th May 2007)  
David Jude (retired 24th May 2007)  
Veronica France  
Rachael Heyhoe-Flint (retired 24th May 2007)  
Norman Riddell  
John Wybrew

#### Executives

John Reeve (Chief Executive)  
John Adams (Finance Director)  
Rob Edwards (Chief Operating Officer)  
Keith Meeres (Secretary and Corporate Services Director)

The Committee has reviewed the length of service of the non-executive directors and considers that they all meet the criteria of independence. In keeping with the Annotated Combined Code for Mutual Insurers, any non-executive director who has exceeded nine years service will, if still considered independent by the Committee, seek re-election on an annual basis rather than every three years. Three non-executive directors, Robert Dolman, John Wybrew and Robert Weir, have each served in excess of nine years on the Committee. After careful consideration of their character, judgement, competence and experience the Committee continues to view them as suitably independent and they will therefore stand for re-election in 2008, however their service will continue to be subject to annual review. Any term of service beyond six years for a non-executive director is also subject to rigorous review.

None of the directors had any interests in the Society or its subsidiary companies other than those interests in respect of fees or salaries paid to them as directors, those interests in respect of the policies which they hold with the Society and those interests specifically disclosed in note 22 of these Annual Report and Accounts.

#### Business objectives and activities of the Society and its subsidiary companies

The Group's objective is generally to promote the financial well being of its members through the provision of life assurance and savings schemes. Your Committee believes that the expectations of its

members, on which the performance of the Committee should be judged, are that the Society meets or exceeds its investment benchmarks and maintains high standards of customer service. We believe also that our members expect the Society to thrive and grow in order to achieve economies of scale whilst maintaining prudent control over costs, maintaining adequate financial resources and complying with all relevant legislation and regulation.

#### Number of members

As at 31st December 2007, the Society had approximately 909,000 members (2006: 815,000).

#### Member relations

The Committee is committed to maintaining good communications with members and is keen to develop its understanding of members' views and provide members with sufficient relevant information to enable them to understand the performance of the Society and its products.

From time to time the Society conducts independent research and surveys with its members which provide valuable feedback to help the Society measure and where necessary improve its services. We hope that members will continue to participate in our surveys. Details of the Society's Member Relations Strategy are available on our website at [www.family.co.uk](http://www.family.co.uk) or from the Society's Secretary.

#### Review of activities, key performance indicators and future developments

Please refer to the Chief Executive's Operational Report on pages 4 to 5 for his review of activities, key performance indicators and comments on future developments.

As at 31st December 2007 the Society's margins of solvency exceeded the minimum requirements, as prescribed by the Financial Services Authority, for each class of relevant business.

#### Financial risk management objectives

The Group is exposed to financial risk through its financial assets, financial liabilities, reinsurance assets and policyholder liabilities. In particular, the key financial risk is that the proceeds from financial assets are not sufficient to fund the obligations from contracts with policyholders.

The most important components of this financial risk are interest rate risk and equity price risk. These risks arise from open positions in interest rate and equity products, all of which are exposed to general and specific market movements.

The Group manages these positions within an asset liability management (ALM) framework that has been developed to achieve long-term investment returns in excess of its obligations under insurance and investment contracts. The principal technique of the Group's ALM is to match assets to the liabilities arising from insurance contracts by reference to the type of benefits payable to contract holders. For each distinct category of liabilities, a separate portfolio of assets is maintained.

For unit-linked contracts, the liabilities to policyholders are matched with assets in the portfolio. The Society therefore is not directly exposed to the price, currency, credit or interest risk for these contracts.

#### Interest rate risk

The Group is exposed to interest rate risk due to the sensitivity of the value of its assets and liabilities to changes in current interest rates.

## COMMITTEE OF MANAGEMENT'S ANNUAL REPORT

The Group monitors interest rate risk by calculating the mean duration of the investment portfolio and the liabilities issued. The mean duration is an indicator of the sensitivity of the assets and liabilities to changes in current interest rates. The mean duration of the liabilities is determined by means of projecting expected cash flows from the contracts using best estimates of mortality and voluntary terminations. No future discretionary supplemental benefits are assumed to accrue. The mean duration of the assets is calculated in a consistent manner. Any gap between the mean duration of the assets and the mean duration of the liabilities is minimised by means of buying and selling fixed interest securities of different durations.

### **Equity price risk**

The Group is exposed to equity price risk as a result of holdings in equity investments held by both the Society's unit linked funds and by the Unit Trusts that it manages.

The Group's most significant income stream is derived as a fixed percentage of the market value of the unit-linked funds and Unit Trusts. Exposures to individual companies and to equity shares in aggregate are monitored in order to ensure compliance with the relevant regulatory limits for solvency purposes. Investments held are listed and traded on the UK and other recognised stock exchanges (primarily in Europe and North America).

The Group has a defined investment policy, which sets limits on the Group's exposure to equities both in aggregate terms and by geography, industry and counterparty. This is monitored by the Investment Sub-Committee of the Committee (see page 17).

### **Reappointment of auditors**

PricewaterhouseCoopers LLP have been the Society's auditors for many years and we have been pleased

with their service. In keeping with best practice, last year we conducted a periodic review of our audit arrangements. Following detailed presentations from three audit firms the Society's Audit Committee felt that it was time for change and Mazars LLP were appointed as our auditors from 18th July 2007, subject to ratification at our 2008 AGM. There were no contractual or other matters that restricted the Audit Committee's decision.

### **Complaints**

It is the Society's policy to investigate and resolve all complaints promptly and fairly but in the event that members are not satisfied with the Society's response, the Financial Ombudsman Service provides a complaints resolution service. Full details can be obtained from the Secretary or from the Society's website at [www.family.co.uk](http://www.family.co.uk)

### **Health and safety report**

The Society has developed a health and safety framework which requires management to have suitable procedures in place to ensure compliance with applicable laws and regulations and, wherever possible, to employ best practice.

One of the key issues for the Society is the creation of a work environment free from injury and illness and the constant improvement of our health and safety performance. This is driven not only by our legal responsibility, but also by the ethical desire to protect our employees. We are pleased to report that in 2007 there were no serious accidents or injuries.

The Society has a health and safety committee which comprises senior management and employees. The committee reviews performance in health and safety matters, promotes good practice and ensures appropriate consultation on any intended changes to its health and safety management systems.

### **Statement of responsibilities of the Committee of Management**

The directors are elected and stand for re-election every three years unless they have served on the Committee in excess of nine years in which case they stand for re-election every year. Election, or re-election, is by majority vote at the AGM.

The Friendly Societies Act 1992 ('the Act') requires the Committee to prepare Accounts for each financial year which give a true and fair view of the state of the affairs of the Society and of the Group as at the end of the financial year and of the income and expenditure of the Society and of the Group for that period. In preparing those Accounts, the Committee is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the Accounts; and
- prepare the Accounts on a going concern basis unless it is inappropriate to presume that the Society will continue in business.

The Committee confirms that it has complied with the above requirements in preparing the Accounts. The Committee is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Society and ensure that the Accounts comply with the Act. It is also responsible for safeguarding the assets of the Society and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Committee is responsible for the Society's systems of control and acknowledges that such systems can provide only reasonable and not absolute assurance against material misstatement or loss.

The Committee conducts, through the Audit Committee, an ongoing review of the effectiveness of the Group's systems of internal controls and risk management and is satisfied that there are no material shortcomings. The review is undertaken by means of receiving audit and management reports, attending risk management meetings, holding discussions with executive and operational management and reviewing the risk management process.

Where significant control shortcomings or risks are identified progress is monitored until the issue is satisfactorily resolved.

In accordance with the Act, the Committee confirms that all activities carried out during the year by the Society and its subsidiary undertakings are believed to have been carried out within their respective powers.

The Committee considers that the skills and experience of the non-executive directors provide an appropriate balance to ensure that the Society is effectively managed and controlled.

## COMMITTEE OF MANAGEMENT'S ANNUAL REPORT

### Liability insurance for officers

The Committee maintained liability insurance for officers of the Society throughout the year.

### Corporate governance

The Society recognises the importance of, and is committed to, high standards of corporate governance. Corporate governance, often defined as the way a firm is controlled and directed from within, has been the subject of increasing focus for mutual organisations.

A new Corporate Governance code for life mutuals (the Annotated Combined Code for Mutual Insurers (July 2005) as amplified by the Best Practice Guidelines for Mutual Insurers (December 2005)) became effective from 1st January 2006.

The Society considers the Combined Code to be closely aligned to the standards that it has set itself and has endeavoured to comply with the main principles for many years even though it has not been required to do so. The Committee has set the values and standards for the Society and its employees, taking account of the principles of the Combined Code, and requires senior management to report to the Committee on adherence.

The Committee considers that throughout the period under review it has applied and complied with all of the relevant principles and provisions of the Annotated Combined Code for Mutual Insurers.

The Committee is primarily responsible for the strategic direction of the Society and delegates responsibility for the day-to-day running of the business to executive management. Progress on operational matters and key initiatives is reported through Committee meetings and all initiatives involving significant expenditure, strategic change, significant perceived risk or material departure from

agreed budget or strategy require Committee consideration and approval.

The division of responsibilities between Robert Dolman, Chairman and John Reeve, Chief Executive has been agreed by the Committee and documented.

Robert Weir, Vice Chairman, undertakes the role of Senior Independent Director.

### Anti-fraud measures

The Society continuously reviews its exposure to fraud and financial crime and takes appropriate measures including anti-fraud management training of its employees to mitigate these risks. Regular fraud and anti-money laundering risk assessment occurs within the Society with this activity underpinned through the respective corporate anti-fraud, anti-money laundering and whistle-blowing policies.

The Society is also a member of the Investment Managers Association Fraud Alert Scheme whose main objectives are to protect member assets and work with the industry in reducing financial crime.

### Attendance at meetings in 2007

The following table sets out the attendance of directors at regular Committee meetings and meetings of the Audit, Nominations, Remuneration and Investment committees held in 2007. The number of meetings that each director could have attended is shown in brackets.

Details of the activities of each individual committee are summarised below and the terms of reference for each committee can be found in the "member information" section of our website [www.family.co.uk](http://www.family.co.uk).

|                             | Committee of Management | Nominations Committee <sup>3</sup> | Audit Committee    | Investment Sub-Committee | Remuneration Sub-Committee |
|-----------------------------|-------------------------|------------------------------------|--------------------|--------------------------|----------------------------|
| <b>Robert Dolman</b>        | 6 (6)                   | –                                  | –                  | 7 (7)                    | 2 (2)                      |

Notes:

- Mrs Heyhoe-Flint and Mr Jude attended all Committee of Management meetings and Mr Jude attended all Audit Committee meetings prior to their retirement on 24th May 2007.
- Mr Wybrew was on holiday for the April meeting.
- The Nominations Committee did not meet during 2007.

The Chairman and non-executive directors meet independently of the executive directors at least four times a year.

### In support of best practice, the Committee operates the following sub-committees:

#### Nominations Committee

Robert Dolman (Chairman)  
Veronica France  
Rachael Heyhoe-Flint (retired 24th May 2007)  
David Jude (retired 24th May 2007)  
Norman Riddell  
Robert Weir  
John Wybrew

The Nominations Committee comprises all non-executive directors and its chairperson is appointed by the Committee of Management. It may obtain such outside legal or other independent professional advice as it deems necessary.

The Nominations Committee usually meets at least once a year to review the structure, size and composition of the Committee of Management. It satisfies itself that there are appropriate succession plans in place for all directors and other senior management positions, and that all directors devote sufficient time to their duties.

The Nominations Committee makes recommendations to the Committee of Management regarding membership of the Audit Committee and the Remuneration and Investment Sub-Committees.

#### Investment Sub-Committee

Robert Dolman (Chairman)  
John Reeve  
Norman Riddell  
Roger Nightingale (external adviser)

The Investment Sub-Committee generally meets seven times a year and is responsible for monitoring the Group's investment performance and for assessing the effectiveness of the investment strategy.

## COMMITTEE OF MANAGEMENT'S ANNUAL REPORT

### **Remuneration Sub-Committee**

John Wybrew (appointed Chairman 25th May 2007)  
Robert Dolman (Chairman until 24th May 2007)  
David Jude (retired 24th May 2007)  
Robert Weir (appointed 25th May 2007)

The Remuneration Sub-Committee meets at least once a year to review remuneration policy and determines the remuneration packages of the executive directors and senior management. It works with the Group's Human Resources department, and independent external advisers where appropriate, to assess trends in the competitor and local employment markets.

Details of the directors' remuneration can be found in the Remuneration Report on pages 23 to 25.

### **Audit Committee**

Robert Weir (appointed Chairman 25th May 2007)  
Veronica France (appointed 1st January 2007)  
John Wybrew  
David Jude (retired 24th May 2007)

The Audit Committee generally meets three times a year and assists the Committee of Management in meeting its responsibilities in respect of the systems of internal control and external financial reporting. It considers the appointment of, and fees for, the external auditors and considers the effectiveness of Internal Audit, which has unrestricted access to the Audit Committee and the Committee of Management. It also takes an independent view of the appropriateness of the Group's accounting policies and practices.

The Audit Committee also undertakes the role of a "with-profits committee" in order to oversee the Society's with-profits business in accordance with Financial Services Authority rules, in particular the Principles and Practices of Financial Management published for each with-profits fund.

On behalf of the Committee of Management, the Audit Committee reviews the independence and objectivity of the external auditors before an appointment recommendation is made to members at the AGM. The nature and extent of non-audit work and related fees are regularly reviewed by the Audit Committee, and the Committee of Management has developed a policy setting out the terms and conditions for engaging the Society's external auditors to supply non-audit services that is designed to protect objectivity and independence.

### **In addition to the above sub-committees a POIS Supervisory Board and a Risk Management Committee were maintained comprising directors and senior managers:**

#### **POIS Supervisory Board**

The POIS Supervisory Board meets four times a year and is responsible for monitoring the performance of the business of POIS Assurance which transferred to the Society on 2nd April 2002.

#### **Risk Management Committee**

The Risk Management Committee meets regularly to review the changing risks arising both from within the Group and from changes in the external environment and to consider appropriate strategies to mitigate those risks.

The Risk Management Committee monitors the adequacy of the systems of internal control which are embedded in the operations of the Group to ensure that management is capable of responding quickly to changing risks and that procedures are in place for reporting immediately to appropriate levels of management any major control weaknesses that are identified. The Risk Management Committee provides regular reports of its activities to the Committee of Management and Audit Committee.

### **Performance monitoring and evaluation**

Each year the Committee of Management sets key business objectives for the Society for that year and as part of its rolling three year plan based on the objectives outlined in the business objectives and activities section on pages 12 to 13. Performance against these objectives is monitored by the Committee at regular intervals.

In compliance with the Annotated Combined Code for Mutual Insurers, the Committee conducts a formal evaluation annually of the performance of the Chairman and each director and of the performance of the sub-committees and Committee as a whole. In 2007 the evaluation was conducted by questionnaires and reviewed by an independent consultant who provided summary reports to the Chairman, Vice Chairman and Committee. No significant issues or material points of action arose from the 2007 review, other than to recognise the need to further consider board succession planning. In addition the Chairman holds periodic meetings with each executive director and formal meetings with the non-executive directors to evaluate the performance of the Committee.

### **Employees**

The Group employed an average of 282 employees during 2007 at a total cost of £10m.

The Committee believes that the development and training of employees continues to be essential in order to ensure effective management of the Society and provision of appropriate service to members.

In 2007 the Society took appropriate steps to familiarise its managers with new employment legislation. The Society also encourages and provides for continuing personal development in line with corporate objectives. To this end, as an example, in 2007 it developed an in-house Leadership

Development Programme, aimed at increasing the all-round skills and abilities of its front line managers.

It is the Society's belief that excellent service to members, efficiency and high productivity are best achieved in a harmonious working environment with high levels of employee involvement. Timely, consistent, open and honest communications to and between all employees are an important part of this and we have a variety of mechanisms in place to achieve this. These mechanisms include employee question and answer forums with the executive directors and senior management, regular team briefings and an employee forum of elected representatives which meets regularly to consult on areas of concern, health and safety and any other issues raised by employees. Regular business updates enable employees to link their personal objectives to the overall business strategy. The Society also operates an annual employee survey, which allows a further channel of communication.

### **Equal opportunities**

It is the Society's policy to treat job applicants and employees in the same way, regardless of their sex, race, ethnic origin, religion, age, sexual orientation, marital or parental status, or disability. The Society is committed to recruiting, developing, progressing and training employees on the basis of their individual aptitude, competencies and performance.

Furthermore, the Society recognises that it has clear obligations towards all its employees and the community at large to ensure that people with disabilities are afforded equal opportunities to enter employment and progress within the Society.

## COMMITTEE OF MANAGEMENT'S ANNUAL REPORT

In addition to complying with legislative requirements affecting the disabled, the Society will follow procedures designed to provide for fair consideration and selection of disabled applicants and to satisfy their training and career development needs. With this in mind, the Society has developed and maintained strong links with a variety of charities supporting applicants who may consider themselves affected by disability.

If employees become disabled in the course of their employment steps will be taken, through making reasonable adjustments to their role, retraining or redeployment if necessary, to enable them to remain in employment with the Society wherever possible. The policy applies equally to registered and non-registered disabled employees.

### **Employee involvement**

The Values initiative launched in 2006 continues to encourage employees to build upon and maintain the high levels of service that we aim to provide to our members. We continue to focus on five core values, which we aim to demonstrate in all dealings with our members: professionalism, respect, honesty and customer and commercial focus. In 2007 three Values initiatives led by senior managers focused on effective communication, an evaluation of the employee Performance Review Process and the development of the Leadership Development Programme.

The Society already enables its employees to participate in the Government's Childcare Voucher Scheme and from 2008 will also enable its employees to benefit from the Government's Cycle to Work scheme.

### **Corporate social responsibility**

#### ***Our role as an institutional investor***

The majority of the Society's funds are managed by New Star Institutional Managers Limited which has

outsourced its corporate governance, research and proxy voting to Research, Recommendations and Electronic Voting (RREV).

RREV analyse all resolutions of the companies in which we invest in the context of the Combined Code on Corporate Governance in the UK, and its equivalents abroad, and vote according to best practice as so defined. Where there is a very contentious issue it is referred to the appropriate fund manager to decide how to proceed.

#### ***Environmental matters***

The Society is working towards the continual improvement of environmental matters. During 2007 we undertook an environmental survey in conjunction with The Carbon Trust to measure our energy consumption and identify energy saving opportunities. This is the first time the Society has been able to measure its energy efficiency in the form of a carbon footprint, something that is an ever-important issue with employees as well as being high on the Government's agenda. It was very encouraging to the Society that the report showed the performance of the Society's West Street building as better than average for its sector.

The Society recognises the importance of being environmentally proactive and will strive to play its part to reduce the impact of global warming. With this in mind we will continue to identify where we can be more energy efficient, review and audit our policies, monitor energy and water consumption, recycle where possible and procure materials from sustainable sources.

#### ***Working in the community***

During the eighteen years that the Community Programme has been running, we have won a number of awards and contributed to many Charities and youth initiatives.

We are proactive in the encouragement of our employees to actively get them involved in supporting the local community. As an integral part of employee development it plays a key part in learning and developing skills as well as giving something back to the community in which the Society is based.

The launch of the Child Trust Fund in 2005 enabled us to re-align our programme to work alongside the Society's key business objectives and we began working with local charitable or non-profit nurseries in the local area, helping to improve co-ordination, imagination and communication using art, music and developing key areas for story telling and play.

The Society continues to support its core projects, Blatchington Mill School, Middle Street Primary School, Brighton and Hove City College and Age Concern. In addition in 2008 we have forged a new link with Education in the City, who are rolling out "Financial Capability" presentations to primary schools. The aim of the project is to educate all primary school children in the concept of "What Money Means" and employees are invited to join a maths class or workshop to support children in learning about finance. It is expected that in the forthcoming years children will learn about the Child Trust Fund in school, and it is a good opportunity for the Society and employees to be involved with our new investors.

The Society's "Interview Skills" day for local colleges continues to be a success, providing invaluable experience and practice to students of an interview process with feedback. An added benefit is that it allows employees to develop interviewing skills. We also facilitated leadership and motivational training for young people from local colleges to develop team working and communication skills.

The Society continued its support for the Family Festival at the Brighton Dome Theatre. 2007 was

the fifth year in which over 400 performers from local schools and colleges put on a dance and music extravaganza.

Employees are encouraged to participate in the Community Programme and in 2007 100 employees were involved in team challenges and more than 30 took part in community events.

During 2007 donations and fundraising activities raised £30,000 (2006: £19,000) to support local charities and the local activities of national charities. Over the past twelve years the Society has raised over £140,000 for local charities. The Society has also made small donations, via the Share Foundation, to Child Trust Fund accounts of children in care. No political donations were made.

The Society remains mindful of its role and responsibility to the local community and has extended the range of donations being made to the Child Trust Funds of children in care, so that during 2008 every qualifying child's account in both East and West Sussex will benefit from our donations.

The Community Programme continues to uphold the values and commitment that is associated with the Society. The support for the programme is outstanding and firmly embossed within the Society's ethos.

### **Family Investments Ethical Child Trust Fund and Tree Appeal**

The launch of our Ethical Child Trust Fund in November 2006 gave eco-conscious parents the choice of an ethical version of our stakeholder CTF. Family's Ethical CTF is unique as it is the only actively managed ethical stakeholder CTF account currently available in the market. It invests in a Unit Trust called the Family Charities Ethical Trust, which is managed by New Star and avoids investing in unethical companies.

## COMMITTEE OF MANAGEMENT'S ANNUAL REPORT

David Bellamy and children from Dorothy Stringer and other schools planting trees in a Family Forest.

The popularity of our ethical account shows that many parents are just as concerned about the long-term sustainability of the planet as they are about their child's financial future.

Parents opening an Ethical CTF who also set up a direct debit are given the choice of eco-friendly gift vouchers or to have a tree planted on their behalf. As a result, just one year from launch, Family were delighted to find they were committed to planting over 1,500 trees.

In November 2007 we formed a relationship with the Tree Appeal who agreed to plant these trees on our behalf. Our first 1,500 trees were donated to the Dorothy Stringer School in Brighton, and every pupil had the opportunity to plant their own tree.

Around 20 of our employees were able to get involved with our first tree-planting day, held on 21st November. Throughout the day, representatives

from Family Investments and Tree Appeal worked with teachers from Dorothy Stringer and other local schools, to help the children plant their trees under the enthusiastic direction of David Bellamy!

After the success of our first tree-planting venture we are already looking for a site on which to plant our next donation of 1,500 trees. We are looking forward to working with the Tree Appeal for many years to come, to create several Family Forests throughout the UK.

A handwritten signature in black ink, appearing to read 'K. Meeres'.

Keith Meeres, Secretary  
March 2008

## REMUNERATION REPORT

This report sets out the Society's policy in relation to the remuneration of directors. The report, which will be submitted to the forthcoming AGM for approval, explains how the Society has applied the Annotated Combined Code for Mutual Insurers as regards directors' remuneration. No director is involved in the determination of, or votes on, any matter relating to their own remuneration.

### Remuneration Sub-Committee

The role of the Remuneration Sub-Committee is outlined on page 18.

### Advisers to the Committee

During the year the Remuneration Sub-Committee engaged the services of Kelham Corporate Consulting (Kelham), a firm of independent advisers, to provide advice and guidance on directors' and senior management remuneration. Kelham also provided advice and guidance to the Society's Human Resources department during the year.

### Remuneration Policy

The Society's remuneration policy is designed to attract, motivate and retain key executives, and indeed all employees, with the relevant skills to help achieve the Group's objectives and to ensure that employees are rewarded for enhancing the level of service that we provide to our members. It is also designed to achieve an effective link between pay and performance.

During 2007 the Sub-Committee undertook a comprehensive benchmarking exercise, again with the assistance of Kelham, as regards the remuneration of executive directors and senior management, to ensure that salaries are in line with salaries for comparable positions in similar financial organisations.

### Service contracts

It is the Society's policy that the notice period of

executive directors' service contracts should not exceed one year. None of the non-executive directors has a service contract.

Fees for non-executive directors are reviewed each year.

### Remuneration components comprise:

#### Base salary

Base salaries are determined by individual performance and by reference to market salary levels obtained from independent sources. This is the only element of remuneration which is pensionable. In order to contain future pension scheme costs, from 1st January 2006, pensionable salaries have increased by a maximum of RPI. Any increase in base salary above RPI will be non-pensionable.

#### Long term incentive scheme

The four executive directors, together with eight senior managers, are included within a bonus scheme targeted at increasing the embedded value of the Society. Payments are capped as a percentage of salary.

The long term incentive is achieved by withholding a proportion of the total bonus due for a period of three years during which period the accrued amount may rise or fall as determined by the increase or reduction in the Society's embedded value.

Amounts accrued for executive directors at the year end are disclosed on the following page.

#### Pension

The Society operates a defined benefit pension scheme (now closed to new members) in which the executive directors participate. The scheme is non-contributory.

#### Other benefits

The Society provides other benefits to the executive directors including life assurance and private medical insurance.

Note 1 – Rachael Heyhoe-Flint and David Jude retired from the Committee of Management on 24th May 2007.

Note 2 – Excluding the retirements noted above, year on year growth in the Salaries and Fees paid to the Committee of Management has increased by 6.9%.

Note 3 – Bonuses include amounts added to the long term incentive scheme (shown below).

Note 4 – Includes increase in accrued pension during the year (shown on adjacent page).

### Long term incentive scheme

|                   | <i>Value</i>    | <i>Bonus</i>                   | <i>Embedded</i>                | <i>Bonus</i>       | <i>Value</i>      |
|-------------------|-----------------|--------------------------------|--------------------------------|--------------------|-------------------|
|                   | <i>at</i>       | <i>withdrawn</i>               | <i>value increase</i>          | <i>added</i>       | <i>at</i>         |
|                   | <i>1.1.2007</i> | <i>during 2007<sup>1</sup></i> | <i>during 2007<sup>2</sup></i> | <i>during 2007</i> | <i>31.12.2007</i> |

| <b>Executives</b> |                 |                                |                                |                    |                   |
| John Reeve        | 133             | –                              | 6                              | 19                 | 158               |
| John Adams        | 102             | –                              | 5                              | 12                 | 119               |
| Rob Edwards       | 25              | 7                              | 1                              | 13                 | 32                |
| Keith Meeres      | 20              | –                              | 1                              | 10                 | 31                |

Note<sup>1</sup> – Withdrawals are allowable three years after the bonus was added, adjusted by the movement in the embedded value over the period left invested in the scheme.

Note<sup>2</sup> – Embedded value increased by 4.47% during the year.

### Pension entitlements

The executive directors have retirement benefits accruing under the Society's defined benefit pension schemes during the year. The table below sets out these benefits:

|                   | <i>Age</i> | <i>Total accrued</i>          | <i>Increase in</i>   | <i>Transfer</i>               | <i>Change in</i>                 |
|-------------------|------------|-------------------------------|----------------------|-------------------------------|----------------------------------|
|                   |            | <i>pension</i>                | <i>total accrued</i> | <i>value of</i>               | <i>transfer value</i>            |
|                   |            | <i>31.12.2007<sup>1</sup></i> | <i>during the</i>    | <i>accrued</i>                | <i>during the year</i>           |
|                   |            | <i>£'000</i>                  | <i>year</i>          | <i>pension at</i>             | <i>net of directors</i>          |
|                   |            |                               |                      | <i>31.12.2007<sup>2</sup></i> | <i>contributions<sup>3</sup></i> |
|                   |            |                               |                      | <i>£'000</i>                  | <i>£'000</i>                     |
| <b>Executives</b> |            |                               |                      |                               |                                  |
| John Reeve        | 60         | 118                           | 5                    | 1,423                         | 122                              |
| John Adams        | 53         | 49                            | 4                    | 458                           | 53                               |
| Rob Edwards       | 52         | 44                            | 4                    | 403                           | 49                               |
| Keith Meeres      | 50         | 48                            | 3                    | 366                           | 40                               |

The main terms applying to the final salary pension of each executive director are that their pension is payable from normal retirement age of 65 and that a spouse's pension is payable on death at 50% of that executive director's pension.

Note<sup>1</sup> - The total accrued pension is the annual pension amount which the executive director would have been entitled to from normal retirement age if they had left service on 31st December 2007.

Note<sup>2</sup> - The transfer values have been calculated in accordance with the Actuarial Guidance Note GN11.

Note<sup>3</sup> - No contributions were payable by the executive directors during the year.

## INDEPENDENT AUDITORS' REPORT

To the Members of Family Assurance Friendly Society Limited

We have audited the financial statements of Family Assurance Friendly Society Limited for the year ended 31st December 2007 which comprise the primary financial statements such as the Income and Expenditure Account, the Balance Sheet and the related notes. These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the Society's members, as a body, in accordance with The Friendly Societies Act 1992. Our audit work has been undertaken so that we might state to the Society's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Society and the Society's members as a body, for our audit work, for this report, or for the opinions we have formed.

### Respective responsibilities of the Committee of Management and Auditors

As described in the Statement of the Committee of Management' Responsibilities, the Society's directors are responsible for the preparation of financial statements in accordance with applicable law and United Kingdom Auditing Standards (United Kingdom Generally Accepted Accounting Practice).

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

The Society has also instructed us to review the Society's compliance with provisions C1.1, C2.1 and C3.1 to C3.7 of the Annotated Combined Code.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Friendly Societies Act 1992. We also report to you if, in our opinion, the Society has not kept proper accounting records, if we have not received all the information and explanations we require for the audit, or if information specified by law regarding Committee of Management's remuneration and transactions with the Society is not disclosed.

We read the Committee of Management's Report and consider the implications for our report if we become aware of any apparent misstatement or material inconsistencies with the financial statements.

We read other information contained in the Annual Report, and consider whether it is consistent with the audited financial statements. This other information comprises only the Chairman's Review, the Chief Executive's Operational Report and the Remuneration Report. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

### Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Society's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

### Opinion

In our opinion the financial statements give a true and fair view, in accordance with United Kingdom Generally Accepted Accounting Practice, of the state of the Society's and the Group's affairs as at 31st December 2007 and of the income and expenditure of the Society and the Group for the year then ended, and the financial statements have been properly prepared in accordance with the Friendly Societies Act 1992.

The Committee of Management's Annual Report has been prepared in accordance with the Friendly Societies Act 1992 and the Regulations made under it, and the information given therein is consistent with the accounting records and the financial statements for the financial year.

Approved by the Committee of Management on 12 March 2008, and signed on its behalf by:

Robert Dolman, Chairman

John Reeve, Chief Executive

# NOTES TO THE ACCOUNTS

## 1 PRINCIPAL ACCOUNTING POLICIES

### **Basis of accounting**

The Accounts have been prepared in accordance with The Friendly Societies (Accounts and Related Provisions) Regulations 1994 ('Regulations') and in accordance with applicable Accounting Standards in the United Kingdom including the guidance provided by the Association of British Insurers in their Statement of Recommended Practice ('ABI SORP') dated December 2005.

### **Basis of consolidation**

The Group Accounts comprise the assets, liabilities and profit and loss account transactions of the Society together with its subsidiary undertakings. The activities of the Society and the Group are accounted for in the Technical Account – Long Term Business. The results of subsidiary undertakings are included from the date of acquisition.

### **Premiums**

Premiums for non-linked business are accounted for on a receivable basis. Premiums for unit-linked business are accounted for when the policy liability is established.

Outward reinsurance premiums are accounted for in accordance with the contract terms when due, reflecting the period in which risk is transferred.

### **Investment return**

Investment return comprises investment income, including realised investment gains and losses and movements in unrealised gains and losses, net of investment expenses and charges.

Dividends are included as investment income on the date that the shares become quoted ex-dividend. Interest, rents and expenses are included on an accruals basis.

Realised gains and losses on investments are calculated as the difference between net sales proceeds and original cost. Unrealised gains and losses on investments represent the difference between the valuation at the balance sheet date and their purchase price, or if they have been previously valued, their valuation at the last balance sheet date. The movement in unrealised gains and losses recognised in the year also includes the reversal of unrealised gains and losses recognised in earlier accounting periods in respect of investment disposals in the current period.

### **Claims**

Maturity claims and annuities are charged against revenue when due for payment. Surrenders are accounted for when paid or, if earlier, on the date the policy ceases to be included within the calculation of the long term business provision and/or the technical provision for linked liabilities. Death claims and all other claims are accounted for on notification.

Claims payable include all related internal and external claims handling costs. Reinsurance recoveries are accounted for in the same period as the related claim.

### **Pensions costs**

The Group operates a defined benefit pension scheme, the Family Assurance Friendly Society Limited Staff Pension Scheme ('the Scheme'). The Scheme's funds are administered by trustees and are independent of the Group's finances. The Scheme is valued every three years by a professionally qualified independent actuary, the rates of contribution payable being determined by the actuary. In intervening years the actuary reviews the continuing appropriateness of the rates.

The pension asset recognised in the balance sheet is the value of the Scheme's assets less the present value of the Scheme's liabilities.

The pension cost for the Scheme is analysed between current service cost, past service cost and net return on pension scheme assets. Current service cost is the actuarially calculated present value of the benefits earned by the active employees in each period. Past service costs, relating to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to, retirement benefits, are recognised in the Technical Account – Long Term Business on a straight line basis over the period in which the increase in benefits vest.

Net expected return on the pension asset comprises the expected return on the pension scheme assets less interest on pension scheme liabilities.

The actuarial gains and losses, which arise from a valuation and from updating the latest actuarial valuation to reflect conditions at the balance sheet date, are included as a separate line in the Technical Account – Long Term Business immediately above the line for transfer to or from the fund for future appropriations and are reflected in that transfer.

The defined benefit scheme is closed to new entrants. In its place the Society makes pension contributions to a defined contribution stakeholder pension scheme on behalf of new staff when they become eligible for pension benefits. Contributions are reflected in the Technical Account – Long Term Business in the period the contributions become payable.

### **Investments**

Investments are stated at market value at the balance sheet date. Any appreciation or impairment in value during the year is accounted for in the Technical Account – Long Term Business.

Investments in subsidiary undertakings are stated at net asset value, which the directors do not believe is materially different from current value.

Land and buildings occupied by the Society are valued annually by independent professional advisors at market value based on vacant possession. No depreciation is provided on owner-occupied properties as it is considered that their useful economic lives and residual values are such that their depreciation is immaterial, both individually and in aggregate. An impairment review is also performed on owner-occupied properties.

Unrealised gains and losses arising on the revaluation of land and buildings are taken to the Technical Account – Long Term Business.

### **Assets held to cover linked liabilities**

Assets held to cover linked liabilities reflect the terms of the related policies and are valued on a basis consistent with the related liabilities.

### **Reassurers' share of technical provisions**

The reassurers' share of technical provisions is calculated on a basis consistent with that of the corresponding liabilities.

### **Deferred tax**

Deferred tax is calculated on a full provision basis and consists of the estimated taxation, or relief from taxation, which is expected to arise in the foreseeable future from material timing differences using expected future rates of tax where applicable. Credit is taken for relief from trading losses only to the extent that the Committee of Management anticipates that profits will absorb such losses in the foreseeable future.

# NOTES TO THE ACCOUNTS

## 1 PRINCIPAL ACCOUNTING POLICIES (continued)

### Tangible assets

Tangible assets are valued at cost less depreciation or amortisation. Depreciation or amortisation is provided on tangible assets at rates calculated to write-off the cost of each asset over its expected useful life as follows:

|   |                             |
|---|-----------------------------|
| Furniture, fixtures and fittings and office equipment | 2 years                     |
| Computer hardware                                     | 4 years                     |
| Computer software                                     | In full in year of purchase |

### Research and development expenditure

Research and development expenditure represents product and related systems development costs incurred and written off during the year.

### Foreign currencies

Assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date. Foreign exchange differences, which arise principally on the investment portfolio, are included in investment gains and losses in the Technical Account – Long Term Business.

### Fund for future appropriations

The fund for future appropriations incorporates amounts for which allocation has not yet been determined between the different categories of policyholders based on the Rules and Tables of the Society. Transfers to and from this fund reflect the excess or deficiency of income over expenditure arising from the business underwritten by the Society.

This fund includes surpluses arising on the former Family Life Assurance Limited closed fund and on the former POIS Assurance Limited closed fund which are ring fenced according to the transfer of engagements agreements.

### Long term business provision

The long term business provision is determined by the Society's actuary following the annual investigation of the long term business, and is calculated initially on a statutory solvency basis to comply with the reporting requirements of the Integrated Prudential Sourcebook for Insurers. The calculation in respect of term assurance and annuities in payment uses the gross premium valuation method, the calculation for all other types of business uses the net premium valuation method and as such, includes explicit provision for vested bonuses (including those vesting following the current valuation). Implicit provision is made for future reversionary bonuses, but not terminal bonuses, by means of a reduction in the valuation rate of interest. The valuation is then adjusted for certain items, including the removal of certain contingency and other reserves. This adjusted basis is referred to as the modified statutory solvency basis.

The long term business provision includes the life cover and expenses associated with the linked liabilities of the Society.

### Segmental reporting

In the opinion of the Committee of Management, the Group operates in one business segment being that of long term insurance and retail investment business in the United Kingdom.

## 2 PREMIUM ANALYSIS

All business is written in the United Kingdom and is direct business relating exclusively to individual policyholders.

| <b>Total gross premiums written</b> | <u>67,715</u>            | <u>72,983</u> |

|  | <i>Society 2007</i> |                | <i>Society 2006</i> |                |
|--|---------------------|----------------|---------------------|----------------|
|  | <i>Single</i>       | <i>Regular</i> | <i>Single</i>       | <i>Regular</i> |
|  | <i>£'000</i>        | <i>£'000</i>   | <i>£'000</i>        | <i>£'000</i>   |
| <b>b) Gross new business premiums:</b> |                     |                |                     |                |
| New business premiums                  | <u>380</u>          | <u>2,805</u>   | <u>726</u>          | <u>2,960</u>   |

### In classifying new business premiums the following basis of recognition is adopted:

- Incremental increases under existing policies are classified as new business premiums.
- Where regular premiums are received other than annually the regular new business premiums are on an annualised basis.
- Products substituted due to the exercise of standard contract terms are not included in the new business statistics.
- New recurrent single premium contracts, including Department for Work and Pensions rebates on certain pension products, are included in annual new business premiums to the extent that they are deemed likely to renew.

|   | <u>76,631</u> | <u>–</u>       | <u>97,581</u> | <u>–</u>       |

Contributions relate to business conducted by three of the Society's regulated subsidiaries, Family Equity Plan Limited, Family PEP Managers Limited and Family Investment Management Limited. The business is defined as retail investment business and accordingly the contributions received are not included in 'Earned premiums' as disclosed in the Technical Account – Long Term Business. The income and expenditure from this business is included in 'Other technical income' and 'Other technical charges' as disclosed in the Technical Account – Long Term Business (see note 5).

| Current year  | 544   | 544   | 59  | 59  |
| Tax payable on unrealised gains on unit-linked assets | (85)  | (85)  | 60  | 60  |
| Adjustments in respect of prior periods               | (10)  | (24)  | (253)                                       | (81)  |
|   | <u>449</u>                                  | <u>435</u>                                    | <u>(134)</u>                                | <u>38</u>                                     |

The Society's main product, the Family Bond, represents tax-exempt business under Section 460 of the Income and Corporation Taxes Act 1988. The Society also writes taxable business, principally temporary annuities, together with other life and pensions business.

A taxation liability of £459k (2006: £119k) relating to taxable business has been provided for. Taxes have been charged at various rates ranging from 20% to 30% (2006: 20% to 30%).

|   | <i>Group</i><br><i>2007</i><br><i>£'000</i> | <i>Society</i><br><i>2007</i><br><i>£'000</i> | <i>Group</i><br><i>2006</i><br><i>£'000</i> | <i>Society</i><br><i>2006</i><br><i>£'000</i> |
|---|---|---|---|---|
| <b>Deferred tax liability:</b>              |   |   |   |   |
| Unit trust deemed disposals                 | (113)                                       | (113)   | (230)                                       | (230)   |
| Unrealised capital gains on property assets | (62)  | (62)  | (48)  | (48)  |
| Actuarial reserves                          | (17)  | (17)  | (8)   | (8)   |
| <b>Deferred tax liability</b>               | <u>(192)</u>                                | <u>(192)</u>                                  | <u>(286)</u>                                | <u>(286)</u>                                  |
| Deferred acquisition expenses               | 192   | 192   | 286   | 286   |
| <b>Deferred tax balance</b>                 | <u>–</u>                                    | <u>–</u>                                      | <u>–</u>                                    | <u>–</u>                                      |

There is an unrecognised deferred tax asset of £487k (2006: £627k), of which £192k (2006: £286k) has been set aside to offset unrecognised deferred tax liabilities. The balance of £295k (2006: £341k) represents the net unrecognised deferred tax asset. This balance comprises, inter-alia, two principal components: ISA tax losses, which are being carried forward to future periods to offset any future taxable profits arising on ISA business, and deferred acquisition expenditure which will unwind in future periods to reduce taxable income arising from life business. The Society has taken the view that there is insufficient evidence that the net deferred tax asset will be recoverable, and has therefore decided not to recognise any benefit.

### Chairman

The aggregate remuneration paid, comprising salary and benefits, to Mr. Robert Dolman for the year ended 31 December 2007 amounted to £65k (2006: £63k).

### Highest paid Committee member

The aggregate remuneration paid to Mr. John Reeve for the year ended 31 December 2007, comprising salary, benefits and the change in his accrued pension during the year, amounted to £287k (2006: £288k). Had Mr. Reeve left service and pensionable service in the Staff Pension Scheme at 31 December 2007, his deferred pension at leaving would have been £118k per annum (2006: £113k per annum).

### Pension contributions

All of the executive directors had retirement benefits accruing under defined benefit pension schemes during the year. There were no other pension contributions paid by the Society for the benefit of any of the directors during the year.

Further details of the emoluments of the Committee of Management can be found in the Remuneration Report on pages 23 to 25.

### Long term incentive scheme

The executive directors had benefits under a long term incentive scheme during the year. The scheme is targeted at increasing the embedded value of the Society and amounts accrued, for the benefit of the executive directors, as at 31 December 2007 are £340k (2006: £280k). Benefits are receivable three years after the bonus declaration, contingent on the overall improvement of the Society's embedded value. The criteria used for determining executive directors' bonuses are the same as those which apply to the general bonus scheme applicable to all staff and bonuses are capped as a percentage of salary.

## 17 POLICYHOLDER LIABILITIES AND RESERVES IN RESPECT OF THE SOCIETY AND THE GROUP (continued)

### Principal assumptions:

The valuation of non-linked with-profits business has been carried out using a net premium valuation method using the following principal assumptions:

|                                    | Interest rate % |      | Mortality rate    |                   |
|------------------------------------|-----------------|------|-------------------|-------------------|
|                                    | 2007            | 2006 | 2007              | 2006              |
| Taxable with-profits POIS fund     | 2.25            | 2.25 | 100% of AM80/AF80 | 100% of AM80/AF80 |
| Non taxable with-profits POIS fund | 3.00            | 3.00 | 100% of AM80/AF80 | 100% of AM80/AF80 |

The level of expenses included in the valuation are based on the current year's expenses allowing for cost inflation of 4%.

The principal changes to valuation assumptions made since the previous year-end were:

- a decrease in the level of renewal expenses assumed for unit-linked policies, reflecting a change in the ongoing administration expense levels the Society operates at.
- a decrease in the rate of mortality assumed for unit-linked policies reflecting current experience.

The overall effect of changes to assumptions has been to decrease the long term business provision, net of reinsurers' share, by £1.0m.

A reduction in interest rates would reduce the impact of discounting on the long term business provision, resulting in an increased provision. If, for example, the valuation interest rate were to be reduced by 0.5%, the long term business provision would increase by approximately £1.8m. This does not include the corresponding effect on the valuation of assets.

## 18 BONUSES AND REBATES

### Management of insurance risk

#### Capital management

The Society maintains sufficient capital, consistent with the Group's risk profile and the regulatory and market requirements of its business.

The Society is subject to a number of regulatory capital tests and also employs a number of realistic tests to allocate capital and manage risk. Overall, the Society meets all of these requirements and has significant resources and financial strength.

In reporting financial strength, capital and solvency is measured using the regulations prescribed by the Financial Services Authority (FSA). These regulatory capital tests are based upon required levels of solvency capital and a series of prudent assumptions in respect of the type of business written by the Society.

#### Capital management policies and objectives

The Society's objectives in managing its capital are:

- To match the profile of its assets and liabilities, taking into account the risks inherent in the business;
- To satisfy the requirements of its policyholders, regulators and rating agencies;
- To maintain financial strength to support new business growth;
- To retain financial flexibility by maintaining strong liquidity and access to a range of financial markets;
- To allocate capital efficiently to support growth; and
- To manage exposures to movements in interest and exchange rates.

#### Restrictions on available capital resources

The Society is required to hold sufficient capital to meet the FSA's capital requirements. The capital requirements for both with-profits and non-profit business are calculated on the statutory basis. Account is also taken of the Individual Capital Assessment which considers certain business risks not reflected in the statutory basis.

The Society's total available capital resources are £45.2m (2006: £42.7m) of which £11.9m (2006: £11.9m) is held in with-profits funds and £33.3m (2006: £30.8m) is held in the general fund.

The available capital is subject to certain restrictions as to its availability to meet capital requirements. The available surplus held in the with-profit fund can only be applied to meet the requirements of the fund itself or to be distributed to policyholders of that particular fund.

The available surplus held outside of the with-profit funds is generally available to meet any requirements. It remains the intention of management to ensure that there is adequate capital to exceed the Society's regulatory requirements.

At 31 December the Society's available capital was 572% of the capital requirement of £7.9m (2006: 463% of £9.2m).

#### Capital resource sensitivities

The capital position is sensitive to changes in market conditions, due to both changes in the value of the assets and the effect that changes in investment conditions may have on the value of liabilities. It is also sensitive to assumptions and experience relating to expenses and persistency and, to a lesser extent, mortality.

The most significant sensitivities arise from the following three risks:

- Market risk in relation to the unit-linked business, which would arise if there were adverse changes in the value of unit-linked assets. The Society's most significant income stream is derived as a fixed percentage of the market value of unit-linked assets. A 30% decrease in the value of the unit-linked investments held by the Group would reduce available capital resources by approximately £6.7m.
- Expense risk in relation to the costs of running the business and administering the policies held by the Society, which would arise if there was an increase in expense inflation and / or the cost structure of the Society. A 1.5% increase in the rate of administration expense inflation would reduce available capital resources by approximately £1.7m.
- Persistency risk in relation to unit-linked business, which would arise if there was a significant increase in surrender rates and which would deprive the Society of the future income that business provides. An increase in surrender rates of 80% would reduce available capital resources by approximately £0.7m.

The timing of any impact on capital would depend on the interaction of past experience and assumptions about future experience. In general, if experience had deteriorated or was expected to deteriorate and management actions were not expected to reduce the future impact, then assumptions relating to future experience would be changed to reflect it. In this way, liabilities would be increased to anticipate the future impact of the worse experience with immediate impact on the capital position. Examples of possible management action would be to alter the investment allocation in the unit-linked funds to reduce anticipated adverse market movements and to reduce the discretionary expenditure of the Society.

## 20 ACTUARIAL FUNCTION HOLDER

The Actuarial Function Holder of the Society is Mr. D Addison of Watson Wyatt Limited. The Society has requested him to furnish it with the particulars required in Section 77 of the Friendly Societies Act 1992. Mr. Addison has confirmed that neither he nor his family have any financial or pecuniary interests in the Society, with the exception of the fees paid to Watson Wyatt Limited for professional services, which in 2007 amounted to £445k (2006: £490k), of which £nil (2006: £nil) related to work in respect of transfers of engagements.

## 21 STAFF PENSION PROVISION

The Society operated a defined benefit pension scheme, the Family Assurance Friendly Society Limited Staff Pension Scheme ('the Scheme'). The Scheme funds are administered by trustees and are independent of the Society's finances. Contributions are paid to the Scheme in accordance with the recommendations of an independent actuary.

The defined benefit scheme is closed to new entrants. In its place the Society makes pension contributions to a defined contribution stakeholder pension scheme on behalf of new staff when they become eligible for pension benefits. The stakeholder scheme is administered by Legal & General Assurance Society Limited.

Details in respect of the Scheme are provided below in accordance with FRS17.

Actuarial valuations were carried out as at 31 December 2004 and were updated to 31 December 2007 by an independent qualified actuary in accordance with FRS17. As required by FRS17, the defined benefit liabilities have been measured using the projected unit method.

The following table sets out the key FRS17 assumptions used for the Scheme. The table also sets out, as at 31 December 2007, 2006 and 2005, the fair value of assets, a breakdown of the assets into the main asset classes, the present value of the FRS17 liabilities and the surplus or deficit of the assets over the FRS17 liabilities (the gross pension asset or liability).

| Assumptions             | 2007 | 2006 | 2005 |
|-------------------------|------|------|------|
| Inflation               | 3.5% | 3.1% | 2.9% |
| Pension increases:      |      |      |      |
| pre April 1997 pension  | 0.0% | 0.0% | 0.0% |
| post April 1997 pension | 3.4% | 3.1% | 2.9% |
| post April 2005 pension | 2.3% | 2.2% | 2.2% |
| Salary growth           | 3.5% | 3.1% | 2.9% |
| Discount rate           | 5.6% | 5.1% | 4.9% |
| Investment returns:     |      |      |      |
| Equities                | 7.9% | 7.8% | 7.5% |
| Bonds and cash          | 4.4% | 4.5% | 4.1% |
| Other assets            | 5.6% | 5.1% | 4.9% |

On the basis of the assumptions used for life expectancy, a male pensioner currently aged 60 would be expected to live for a further 26.69 years (2006: 25.63 years). Allowance is made for future improvements in life expectancy.

|                                   | 2007          | 2006          | 2005          |
|-----------------------------------|---------------|---------------|---------------|
| Fair value of assets              | £'000         | £'000         | £'000         |
| Equities                          | 20,414        | 19,989        | 17,183        |
| Bonds and cash                    | 5,290         | 5,330         | 4,423         |
| Other net assets                  | 76            | 63            | 45            |
| <b>Total fair value of assets</b> | <b>25,780</b> | <b>25,382</b> | <b>21,651</b> |
| Present value of liabilities      | (23,858)      | (22,422)      | (21,083)      |
| <b>Gross pension asset</b>        | <b>1,922</b>  | <b>2,960</b>  | <b>568</b>    |

Over the year to 31 December 2007, regular contributions of £571k were made to the Scheme. Future contributions from the Society will be at the rate of 16.6% of members' pensionable salaries, plus amounts equal to the Scheme's Pension Protection Fund levies. The contribution rate will be reviewed following completion of a new full actuarial valuation which is to be undertaken with an effective date of 31 December 2007.

In addition, over the year to 31 December 2007, employee AVC's totalling £18k were paid into the Scheme.

The Scheme is closed to new entrants and, under the method used to calculate pension costs in accordance with FRS17, the cost as a percentage of pensionable payroll will tend to increase as the average age of the membership increases, although in monetary terms is likely to decline.

### The post retirement surplus or deficit under FRS17 moved as follows:

|  | 2007         | 2006         |
|--|--------------|--------------|
|  | £'000        | £'000        |
| <b>Post retirement surplus as at 1 January</b>   | <b>2,960</b> | <b>568</b>   |
| <b>Contributions (employee and employer)</b>   | 589          | 1,082        |
| <b>Operating charge:</b>   |              |              |
| Current service cost (employer's part only)  | (699)        | (813)        |
| <b>Other net finance income:</b>   |              |              |
| Expected return on pension scheme assets   | 1,809        | 1,488        |
| Interest on post retirement liabilities  | (1,152)      | (1,038)      |

## 22 RELATED PARTY TRANSACTIONS

Family Assurance Friendly Society Limited and its subsidiaries, (the Group), have a number of transactions between themselves all of which are undertaken in the normal course of business. As these Accounts cover the Society and the Group, no transactions or balances between Group entities, which eliminate on consolidation, require disclosure in accordance with the exemption given in FRS8.

With the exception of the information given below, no members of the Committee of Management of Family Assurance Friendly Society Limited and its key management had material transactions with any of the Group's related parties.

Mr. John Reeve (Chief Executive) and members of his family had investments in products of the Society of approximately £150k as at 31 December 2007 (2006: £121k).

Mr. Robert Dolman (Chairman) is a partner in a London firm of solicitors which provided legal advice to the Society during the year at a cost of £4k (2006: £9k).

The Society and Group had the following investments in unit trusts managed by a subsidiary, Family Investment Management Limited, as at 31 December:
