

# Family Freeway Managed Fund Factsheet

When you invest with OneFamily, your money buys units or shares in one or more funds. The purpose of this factsheet is to give you information to help you understand how the investment works. If there are any terms you do not understand, please see our “Useful definitions” document, which is available on the fund factsheet section of our website at onefamily.com.

## Where is the fund invested?

The Family Freeway Managed Fund aims to achieve long-term growth, while spreading risk across a wide range of investments. It invests mainly in both UK and overseas shares, along with fixed interest investments and property. It may also invest in alternative investments, money market instruments and cash. The Freeway Managed Fund may achieve this by investing in one or more other funds.

## What are the risks?

We invest in stocks and shares because we believe there is good potential for growth over the long-term. However, there is no guarantee that this will happen and the value of the investment can fall as well as rise. This means that it is possible to get back less than has been paid in.

Additionally, the Family Freeway Managed Fund invests in a type of investment called a hedge fund. Hedge funds generally have far more flexibility in where they invest than a traditional fund and tend to use more advanced and varied investment strategies. However, the varied investment strategies used may be riskier than the strategies used by traditional funds, so the risk that an investor could get back less than has been paid in can be greater. You can find more information about hedge funds and their risks on our website at onefamily.com/hedge-funds or by contacting us.

## Further information.

More information can be found in the document “How we manage our unit-linked funds”. This document is only available in English and can be obtained free of charge on our website at onefamily.com or by contacting us.

You can find the current unit price on our website at onefamily.com/daily-prices.
