The synthetic risk and reward indicator (SRRI) is based on the historic volatility of the fund’s value and it may change in the future.

The fund is in category 6 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time.

For more information, please refer to the Key Risks section on page 3.

WHO IS THIS FUND FOR?
• The fund may be suitable for investors looking for growth from an investment in UK company shares as represented by the index.
• Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years.
• This fund is not designed for investors who cannot afford more than a minimal loss of their investment.
• If you do not understand this document we recommend you seek additional information to help you decide if this fund is right for you.

FUND SNAPSHOT
• What does it invest in? Invests in shares of companies listed on the London Stock Exchange, as represented by the Index.
• How does it invest? Passively managed, aiming to replicate the performance of the Index.
PORTFOLIO BREAKDOWN

All data sources are a combination of LGIM and the Fund Accountant unless otherwise stated. Totals may not sum to due to rounding. In order to minimise transaction costs, the Fund will not always own all the assets that constitute the index and on occasion it will own assets that are not in the index. The number of fund holdings can also differ from the index due to corporate events and proxy holdings.

INDEX FUND MANAGEMENT TEAM

The Index Fund Management team comprises 25 fund managers, supported by two analysts. Management oversight is provided by the Global Head of Index Funds. The team has average industry experience of 15 years, of which seven years has been at LGIM, and is focused on achieving the equally important objectives of close tracking and maximising returns.
KEY RISKS

- The value of an investment is not guaranteed and can go down as well as up; you may not get back the amount you originally invested.
- The fund could lose money if any institution providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The fund may have underlying investments that are valued in currencies that are different from sterling (British pounds). Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
